FINANCE AND COMMERCE.

WASHINGTON, Friday Evenins, July 2.

-The guaranteed 3.65 bonds are daily gaining strength both in New York and Washington, but as the transactions are, in the main, on the street and on private terms, the exact state of the market cannot be got at by our daily quotations from the New York Stock Exchange. Better prices, as well as heavier transactions, are realized on the street than at the boards. The range of the market in the home business is from 71% to 72%, while better prices are made

for blocks.

The 8 per cent greenback bonds are weaker and dull at 00, as public attention is directed from one tax to another, and little of the special improvement is being paid; but it is believed that there will be an active and higher market in a month
